“Karma is not just a metaphysical philosophy. It is real. Whatever you think becomes a reality in the invisible space-time complex of your soul and then this manifest in life after an appropriate lapse of time. That's why it is very, very important to be positive. We should have only positive thoughts. If there are negative thoughts, we do not know what danger they may inflict upon us in this life and in the life to come, because the thought process is what creates karma.”
